Professional Summary

Highly experienced and passionate **Sr. Frontend Developer** with **9+ years of expertise** in designing, developing, and implementing modern web applications, with a strong focus on **Angular (8+ years)** and **ReactJS (6+ years)**. Proven track record in frontend architecture, team coordination, and developing scalable solutions, including **micro-frontends**. Proactive in adopting agile methodologies and committed to continuous software quality improvement, from development through production operations. My focus is on creating intuitive, high-performance user experiences aligned with business objectives.

Professional Experience

Globant, Buenos Aires, Argentina — Sr. FE Developer January 2016 - Present

- Led the design and implementation of frontend architecture for several critical projects from inception, coordinating the frontend development team.
- Designed and developed a business tool using a **micro-frontend approach with Angular and Nx**, facilitating the integration and adaptability of various client applications. This project was completed one sprint ahead of schedule, allowing for an extended period of comprehensive testing and UX improvements, resulting in high client satisfaction.
- Actively participated in over 8 projects using agile methodologies, demonstrating adaptability and the ability to work in diverse environments and teams.
- Responsible for UI development, ensuring the adoption of the latest framework versions and best development practices.
- Collaborated closely with QA, Product, and Backend teams to ensure maximum quality and alignment with requirements.

Open Source, Buenos Aires, Argentina — FE Developer May 2019 - Present

Passionate front-end developer, applying advanced ReactJS and NextJS concepts in personal projects, exploring technologies such as Redux Toolkit, GraphQL, TypeScript, Firebase, and ContextAPI.

- **Lot!**: Business application built to deepen knowledge in React.js, Redux Toolkit, Formik, Yup, React-i18next, and React Router. View Demo - Code
- **YokeTube**: Implemented using NextJS 13, NextAuth.js, MongoDB, and Mongoose to solve daily problems, demonstrating the ability to learn and apply new technologies. View Demo - Code
- **Horario Villarino - 319 app**: Improved user experience for bus timetable visualization, focusing on usability and real-time data display. View Demo - Code
- **GitSearch**: Interview exercise that provided practice using GraphQL and Apollo Client with React. View Demo - Code
- **ReactChat**: Developed a simple chat application using React and Firebase. View Demo - Code
- **BigTime**: Developed a customized React application for a friend, showcasing versatility. View Demo - Code
- **AeroChallenge**: Implemented a shopping cart application using React.js, Vercel, and Context API for state management. View Demo - Code

Freelance, Buenos Aires, Argentina — FE Developer March 2008 - August 2015

- Developed web solutions using technologies such as vanilla PHP, HTML, CSS, MySQL, JavaScript/jQuery, and AngularJS.

Education

Universidad Nacional del Sur, Bahía Blanca, Buenos Aires, Argentina

Bachelor's Degree in Computer Science February 2007 - August 2015

Technical Skills

- **Frameworks/Libraries:** ReactJS (6+ years), Angular (8+ years), NextJS, Redux & Redux Toolkit, React Router, Apollo Client, Formik.
- **Languages:** TypeScript, JavaScript, HTML, CSS, SCSS.
- **Databases/APIs:** GraphQL, RESTful APIs, Firebase, MongoDB, MySQL.
- **Tools/Concepts:** Nx (Micro-frontends), Git, CI/CD, Observability, Agile Methodologies, Functional Programming, Data Structures, Algorithms, StyledComponents, i18next, Context API.

Languages

- Spanish (Native)
- English (Intermediate).
